PRESS RELEASE

FairWind Completes Acquisition of Wind1000

Force Bidco A/S (FairWind) today announces that the acquisition of Wind1000 Corporate Holding S.L (“Wind1000”) has been closed. Closing of the transaction follows the announcement on December 19, 2023, that FairWind has signed an agreement to acquire Wind1000.

Vejle, March 27, 2024

Wind1000, a regional leader within installation of onshore wind turbines, was founded in 2010 and has expanded their activities across Southern Europe and South America, which aligns with FairWind’s global expansion strategy, providing foothold and synergies for both companies for further growth and expansion across the installation and service market in Europe and South America. The former owners of Wind1000 will continue in the group, taking on the responsibility for the Southern Europe and South American (“SESA”) region for FairWind.

The acquisition is financed through a combination of new equity and debt, re-investment from the previous owners, and a smaller bond tap issue. The press release regarding the acquisition from December 19, 2023, is available at www.fairwind.com.

This is information that Force BidCo A/S is obliged to make public pursuant to the EU Market Abuse Regulation. The information was submitted for publication, through the agency of the contact person set out above, at 09:00 CET on March 27, 2024.
